Belief persuasion is sovereign and all inclusive sovereignty, it are the two words used when the written rules within a ritual believe are being accepted as the write method (without errors and problems) to handle a life situation instead of handling based on your own not know sure tactics, what is most time a method with errors & problem because you having no experience. Quran writes about this, a forbid to know sure what you do not know sure.

Quran is a codex that means that it is a holy book with stands full of sovereign rules for all situations. It is the holy book what give the best methods for way of thinking and behaving it won the battle against free thinking so by so and learns you how to live life with status: "Heal All."

Sovereign water is holy water it is necessary to get your body and soul in status: "Heal All." To do so you must bee sovereign and in status: Heal All and very wise and for that you must have a great didactical education, this is necessarily to reached a: "BA40 Level" that generated no further questions after you accomplished answering all your inner questions and you may have no death worries (the older a human is, the more death worries) if you are infected with death worries go for a good medical test and redeploy your self to: "Heal All status" by redeployment of your life style so as written in healthy rituals rules in Quran or healthy life style books. Instead of thinking based on only the method Similar Photonic Thinking we must go over in: "Semi thinking," (Semi Quantum Mechanic Thinking and Semi Similar Photonic Thinking.) Words like: "I, he, she, it, we &they" or equal words that represents one or more people only may been generated based on the method:

"Quantum Mechanic Thinking." what will generates no Harmonic Tooth's inside a Receiving Thinker. Use only Quantum Mechanic Thinking for this words who can lead to bad habits or any other Azazel Effect* at the side of Receiving Thinker or Thinkers.***

- * Azazel Effect = Negative Physical behaving or acting's caused after receiving harmonic Frequency Vibrations in form of receiving somebody else constructive tooth.
