

International Referendum All 1 alpha:

Because of war by human race versus human race, it is needed to organize an international referendum to divorce all human race to decide who god will continue with in the further free future and who not and the true GOD Johannes informed me to do so with the question: "Are you from the party: "Because all received one life so nobody may take one."

Only those who answer: ""yes" and who have the status 1 life received 0 token," will get the protection of All 1 alpha.

Sincerely I stay in status of world doctrine,
